

## ADJUSTABLE HOLE-CUTTERS

Revolutionary tool designed to attach to your drill and cut perfect circles in gip, wood and even metal. Fully adjustable cutting size: 30mm - 260mm.

Cuts in seconds, without making a mess.

- Cuts plywood, plasterboard & acrylic sheet up to 23mm thick (Drilling from the opposite side allows you to cut up to 45mm thick)
- Cuts aluminium, brass and metal sheets up to 1mm thick.

Two different cutters available, depending on what size hole you need to cut:

- Product code **LC-M8** will cut from 30mm up to 163mm
- Product code **LC-XL8** will cut from 30mm up to 260mm

Every hole-cutter comes complete with everything you need.

Complete with carrycase

The following spare parts are available:

Code	Description	Code	Description
LC-SBB15	Spare balance bar 15mm	LC-SBM	Spare blade – for metal
LC-SBB21	Spare balance bar 21mm	LC-SBP	Spare blade – for plaster
LC-SBB36	Spare balance bar 36mm	LC-SDB	Spare drill bit
LC-SBB56	Spare balance bar 56mm	LC-SRA	Spare ruler axle for LC-M8
LC-SBB60M	Spare balance bar 60mm	LC-SRALRG	Spare ruler axle for LC-XL8
LC-SBB80M	Spare balance bar 80mm	LC-SHN	Spare hexagonal nut
LC-SBB100M	Spare balance bar 100mm	LC-SHW	Spare hexagonal wrench
LC-SBB110M	Spare balance bar 110mm	LS-SSPR	Spare spring
LC-SAR	Spare adjustment rod	LC-STCM8	Transparent cover (LC-M8)
LC-SALD	Spare adjustable locking disc	LC-STCXL8	Transparent cover (LC-XL8)
LC-SFD	Spare fixed disc	LC-SUA	Spare upright axle
